Skills

Git

JavaScript

React Js

Node Js

Python

Django

DjangoRestFramework

MongoDB

Firebase (Storage & Authentication)

I am a web developer having worked with a number of web technologies with particular interest in Python's Django and DjangoRest frameworks on the backend to build RESTful APIs. I have worked with the React library to build a number of frontend applications and I am constantly learning more on these technologies as I interact with them. I am able to effectively self-manage on independent projects, as well as collaborate as part of a productive team.

Education

B.Sc. Computer Science, Kenyatta University, Thika

November 2020 – Present

I am a student at Kenyatta University where I am currently undertaking a bachelor's degree in Computer Science.

Employment History

Individual Projects

January 2020 – Present

I have worked on several individual front-end and full-stack projects combining both React Js on the front-end and Django together with the Django Rest Framework on the back-end and in the process having learnt a lot. The projects are available on my [Portfolio](#) and [GitHub](#).
